

THE RUDDINGTON

CARE HOME

A new type of care home that offers local people a comprehensive range of care support in luxurious surroundings, so that they are able to enjoy happiness, friendship and fulfilment in their later years.

The Ruddington

A different type of care home

Constructed in the beautiful grounds of Balmore Country House, less than half a mile from the centre of Ruddington, The Ruddington offers a new approach to care home design. We have created a range of individual living spaces, giving you more choice and freedom in your daily lives than a traditional care home might. All our 'rooms' are apartments and include a lounge and kitchen area for your comfort and convenience. We want to give you more space, better facilities, and more flexibility about how you live your life.

Accessed by an impressive entrance hall and with many first-rate communal amenities, the home offers high-quality living and luxurious interiors, backed by high-quality care services, all day every day.

Our aim is to create a community where you can have privacy, dignity, and are able to do things for yourself should you want to. When you need help, we are there to provide that assistance. Included in all our agreements is 24/7 care and support, all meals, laundry, and a range of entertainment and activities for you to enjoy.

Beautiful, individually designed, apartments

You can choose from a range of one bed apartments to suit your circumstances. You might be looking for an apartment just for yourself or perhaps you are a couple who would like a bit more space.

So that you can maintain your privacy and security each apartment has its own lockable front door. Every apartment is equipped with its own en-suite wet-room with shower, basin and toilet. There is a lounge with a dining area and well-designed kitchenette, complete with fridge, microwave and tea and coffee maker. Apartments are individually decorated and fully equipped with high quality furniture and furnishings including wardrobes, dining table and chairs, as well as an armchair for you to relax in. We also encourage you to personalise the apartment with your own furniture and possessions should you wish to. We want you to feel that you are in your own home from home, so having familiar things around you is important.

A community feel

At The Ruddington we want you to feel that you are part of a vibrant community, and we have created a range of beautiful facilities for you to enjoy.

The reception area is a lovely space, offering a warm and friendly welcome to every visitor. There are several seating areas where you can relax, catch up with friends and family and have a coffee or a chat. This space also incorporates a dining area, providing plenty of room for a family get together, perhaps for a Sunday lunch. There is a large and bright communal lounge for you to sit in at your leisure. If you like being pampered, there is also a fully equipped hair salon and nail bar.

Externally the home has a lovely courtyard garden and some of the apartments have their own balcony space. There is ample parking for visitors and an electric car charging point.

Whatever you choose to do with your day we are confident there is a space to suit your needs.

Enhancing your experience of later life

We believe The Ruddington can help enhance your experience of later life. Every detail has been carefully thought out from access through to care support. We have also made sure that you are able to easily meet and socialise with other residents by designing a great range of communal facilities.

We know that people want to have access to good care and support when they need it, but they don't necessarily want to give up their feeling of independence, of having a place they can call their own. If you have been searching for the right solution for your care needs, The Ruddington may be just what you need.
